August 2018**

REMINDER

Smoking is only permitted around the containers

**During the last week somebody has stolen our new gas BBQ.
If ever we find out who it was, there will be a new target on one of the courses.**

This Sunday, 12th August is round two of the Club Championships. It is a 3D course of 5 pegs and 15 targets shot 3 times. Start time 1000, but be there at 0800 if you want to help to put out the targets.

You may have noticed some bamboo poles with numbers on them around the red course. That is the new layout for the new course design, so please leave them alone. The course will be re laid in September and help will be required moving the bosses, so get your sick notes ready.

Dawn is positive that the target "ducked" just as she shot

We recently had a meeting with Highways England to "clear the air" and try and make them see some sense over when they want the courses closed. They have gone away to try and amalgamate some of the dates and times so that we don't close so often. But when you consider that one of the surveys they are required to do is to look for otters, I don't hold out much hope.

Sorry for the late publication this month, but I was away at the "South West Challenge"
