Newsletter
June 2018**

You must reply to the email of 30th May 2018 re GDPR to remain a member of the club.

As you are aware, Route 5A was chosen by Highways England as their preferred route for the Arundel Bypass. Various groups and organisations are challenging this through the courts. There is also supposed to be further consultation period. The club will keep you informed of all developments as they occur.

19 members of Bognor Regis Archery Club paid us a visit on 20th May for their annual shoot with us.

We currently have 48 members

You may notice some pegs and targets being slightly moved on the courses. This is because it is nesting time, and some birds are choosing to build their nests close to our targets. This means we have to move them

Just a reminder that if you are shooting on your own, please put your name, day and course on the dry wipe board. This is in case you have an accident and we will know where to start looking for you.

During the next couple of months we intend re designing the Red course. As part of the re design we intend building bridges over the streams. If you have any spare scaffolding boards you can donate to the club, please contact Andy.

The first round of the Club Champs was shot on the 27th May with 12 members shooting. The next round is 12th August when we will also have a BBQ

Again we apologise for the seemingly continuous closure of the courses for surveys. We do attempt to keep them to a minimum.
