

**Ratpack Archers
Newsletter
April**

**NFAS and Ratpack memberships are now overdue
if you have not already renewed**

Up and coming shoots: Check with clubs to see if their shoots are on. Due to backlog from previously cancelled shoots, many shoots are already full.

Forth coming plans for the club are a new tarp and frame. Relay of Blue course in conjunction with a course laying course for interested members.

Have a goes will start in May.

Surveys will continue for the next year, all road related. You will be informed for what and when as soon as I know.

We have been asked to have a lease which I am still waiting on to see a draft.

Please report damaged bosses or targets to me so we can keep on top of the repairs now that 50+ have been done. Some shots may be too near or far for the size of target that is now in place. These will be sorted as we find them. Still to do: target numbers on red and replacing red white blue pegs that are broken.

Keith Greene our member from the I.O.W. sadly passed away at the beginning of March. Condolences have been passed on to his wife Fiona on behalf of the club.

Keep well, I hope to see you all shooting soon.
Andy
