

## Ratpack Archers Newsletter

### August 2021

Course closures due to surveys are happening this week as per my email 18/07/2021 and the notice on the green shed.

Tarpaulin project well underway. Thanks to those that are helping. New tarpaulin is out for delivery to me.

TO DO: Fell dead trees, fit second lot of roof battens, remove old tarpaulin and put up new tarpaulin.

I will contact you all when more help is need (which will be soon).

The lease is under way but the landlords solicitors have failed to meet two deadlines set by them so the paperwork for signing is still not ready. Watch this space.

Congratulations to the various medal winners at Holmbush last weekend. Those that shot Saturday can truly claim they have shot in the rain. It rained for at least 2 hours. The footpath became a stream and the parking was wellie deep in water.

But we went back on Sunday and considering the weather Holmbush put on their usual entertaining fun shoot with excellent food, especially the chilli. On the downside Peter Parker did not fall over again and he also refused to stand in the thunder and lightening with his carbon limb bow.

Next away shoot is South Wilts 05/09 and Co of 60 on 12/09. Last HAG of the year is 19/09.

Good shooting, Andy
