June**

Currently we
have 72
members.

I hope to find you all well

**Reminder that the club BBQ and Club Champs are still
posponed.**

**Up and coming shoots that at this moment in time
that have not cancelled:
August:Holmbush,Fleet Ibex.**

**Visit the NFAS webpage for the shoots latest
information.**

Mr Wishart, the landowner of the woods has arranged for the tree that has fallen into the field to be cut up. The tree surgeon should not need access to the woods, but be aware that he may enter the woods.Date unknown.

Some targets are not being put back in their original position when they have been shot. Please be mindful that other archers will shoot the target after you.
Thank you.

Archers have started shooting Green course targets marked with a white square. This they are using as a guide to their individual performance. It is not a competition but anybody can put their personal best up on the white board on the wooden shed.Maximum score possible is over 300 as there are a few pro kills. Have as many goes as you like. Top scorer to date is Ben Knight who is also chasing 15 targets first arrow hit. At the moment he has managed 14 first arrow hits. I have now rolled this out to the two other courses. This will allow you to aim for a personal best on all 3 courses if you wish.

Good health and good shooting.
Andy
