

Ratpack Archers Newsletter October 2016

The new tarpaulin has been put up (twice). It now appears to be draining properly bar one bit. As it is clear plastic, it give a lot more light into the seating area. Thanks to all those who spent two weekends putting it up.

JW Sports in Bognor Regis can now do club shirts with the club logo embroidered on it. The cost is £4.00 plus the price of the shirt. We would prefer if you got your shirts in bottle green so we have a club identity when we go away to other shoots

We are still finding a lot of un-named arrows on the courses. Section 15 of the rules states "All arrows must bear the archer's name. This identification should be a minimum of the archer's initial and surname"

If we find any more arrows without names, they will either be destroyed or re fletched into club arrows for have a gos.

Yet another new target

Recently there has been a lot of interest in the woods and surrounding field by metal detectorists and amatuer historians. If you see them in our woods, please ask them to leave, unless they are escorted by a member of Ratpack

We intend building a new table for the seating area on Sat 22nd Oct. If you can help, please contact Andy
